PROFILE

Highly skilled and experienced Chief Technology Officer (CTO) and Full-Stack Developer with a strong background in managing technical operations and developing robust web solutions. Proven track record of leading technical teams, overseeing website development, and implementing innovative solutions to drive business growth. Adept at utilizing a wide range of technologies to create responsive and scalable websites, with expertise in WordPress, HTML, CSS, JavaScript, TypeScript, React, Node.js, and database management. Excellent problem-solving abilities and a collaborative approach, with a commitment to delivering high-quality results and exceeding client expectations.

WORK EXPERIENCE

CTO

01-2024 - 06-2024

Frolics Fashion

- Managed all technical operations, ensuring seamless integration and functionality of various systems.
- Led the development and maintenance of the company's website using WordPress, including theme customization, plugin integration, and performance optimization.
- Oversaw website hosting and ensured high availability, security, and scalability.
- Collaborated with cross-functional teams to define technical requirements and deliver high-quality solutions.
- Implemented best practices for code management, version control, and deployment processes.
- Provided technical guidance and support to the team, fostering a collaborative and innovative work environment.

Freelance Web developer

QDRA

- Developed and deployed full-stack websites for multiple clients, ensuring responsive design and robust functionality.
- Utilized a range of technologies, including HTML, CSS, JavaScript, TypeScript, React, Node.js, and various back-end frameworks.
- Implemented user authentication, API integrations, and database management using tools such as Auth0, MongoDB, and MySQL.
- Collaborated closely with clients to understand their requirements, providing tailored solutions that met their business needs.
- Ensured high performance, security, and scalability of web applications.
- Provided ongoing maintenance and support, including troubleshooting, updates, and feature enhancements.
