- Led event organization and participant management.

PROJECTS

Pinterest Clone
Technologies Used: HTML5 , CSS ,MERN Stack, Tailwind CSS

Portfolio App
Technologies Used : HTML5 , CSS , Tailwind CSS , NextJs, Mongodb

Budget Buddy App
Technologies Used : HTML5 , CSS , Tailwind CSS , NextJs, Mongodb, Solidity

WORK EXPERIENCE

CTO   01-2024 - 06-2024

Frolics Fashion

- Led WordPress development and maintenance, including theme customization, plugin integration, and performance optimization.
- I oversaw website hosting with a focus on availability, security, and scalability.

Freelance Web developer   06-2024 - 07-2024

QDRA

- Developed and deployed full-stack websites with responsive designs and robust functionality using HTML, CSS, JavaScript, TypeScript, React, Node.js, and various back-end frameworks.
- Implemented user authentication, API integrations, and database management with tools like Auth0, MongoDB, and MySQL.
- Provided ongoing maintenance and support, including troubleshooting, updates, and feature enhancements.

Web developer   09-2024 - 10-2024

AllSwift Solutions

- Provided IT consulting services, facilitated industrial training, and coordinated internships for clients in a remote capacity.
- I oversaw website hosting with a focus on availability, security, and scalability.

CERTIFICATIONS

- **Udemy Certified**:   Web Development Bootcamp, C++
- **HackerRank Certified**:   Javascript basic, CSS Basic
- **SVPCET Certified**:   Technix hackathon

QDRA App

Technologies Used : MERN Stack, Typescript
About: Developed the QDRA Wallet App using the MERN stack and TypeScript, featuring a gamified coin mining system, secure Auth0 authentication, and a referral and subscription model. Integrated MongoDB for backend data management and ensured full responsiveness across devices.
